Osagie Aimiuwu will be graduating with a degree in Neuroscience and will be applying to medical school over the summer. During his application year, he will be home in Maryland tutoring students in the community. His favorite Tarps memory is when they sang songs. He also likes apple juice.

Oliver Chen is a Computer Science & Linguistics double major from Chapel Hill, NC. His favorite memory from Tarps is singing Something Tells Me at midnight on the beach at Surf City or the adventures of Marble Potter. After college, he plans to explore career or further academic options in computer science while working part-time at a music production studio.

Earl McBride, from Burlington, NC, will be graduating with a degree in Psychology and will be heading up to Cape Cod to sing with professional acapella group Hyannis Sound all summer long.
